GL07A – Milestone Progress Report
for Student's Self-Monitoring of Learning Project
(revised on 19 Feb 2020)

Student Name:	Respeto Sofia Amihan Molase	**Admin No.:**	2300600J
Facilitator's Name	Huimei Hu		
Draft No.	1		

Learning Goals/tasks:
1. Develop essential skills in Kotlin and Jetpack Compose for Mobile Application Development
2. Build a fully functional Healthcare Mobile Application as part of my 3 Mapped Subjects
3. Qualify for WorldSkills Singapore 2025 as a Temasek Polytechnic Representative

Right now, I am building my Healthcare Application and documenting the process on my Guided Learning E-Portfolio for evaluation

Current learning status and milestones?

PLAN
- Learning Contract consists of project milestones and deadlines for specific learning goals
- Followed the 5W1H Framework

PERFORM
- Successfully learning and curating notes for modules to be utilised for WorldSkills
- Healthcare Application in Development

MONITOR
- Maintained learning logs with project progress
- Included various code documentations for convenient monitoring

REFLECT
- Completed Certifications and their respective Reflections

Evidence of current status and milestones

PLAN
- Learning Contract and E-Portfolio consisting of detailed project plan

PERFORM
- Detailed PDF of Curated Notes
- GitHub Repository showcasing practice projects of completed modules

MONITOR
- Learning Logs and Milestone Progress Report included in E-Portfolio

REFLECT
- Various reflection notes highlighting experiences, learning points, challenges, and insights included in E-Portfolio

Plan to meet the unfulfilled goals/tasks:

1. Double check backend integration and optimise application performance

2. Integrate advanced UI components into application to enhance user experience

Evidence of achieving my goals/tasks:

PLAN
- Detailed planning included in E-Portfolio

PERFORM
- Final Prototype demonstrating complete

3. Complete various reports and presentations following the completion of my Healthcare Mobile Application	application functionality to be linked in the E-Portfolio **MONITOR** - Various documentations completed such as Reports and Progress checks included in the E-Portfolio **REFLECT** - Presentation Slides and Summary segment of the E-Portfolio includes learning experiences and technical competencies
